BOOK SYNOPSIS

Each of the pieces included in this collection is a classic on the theory of double-entry bookkeeping. Of the nine articles reprinted in this volume originally published in 1984, those by Ladelles, Hotelling and Anton are recognized as being the classic articles on the depreciation of a single "machine"™. For many years accountants have dealt with depreciation and capital maintenance as a static problem. This volume recognizes its dynamic aspects.

FOUR CLASSICS ON THE THEORY OF DOUBLE-ENTRY BOOKKEEPING RLE ACCOUNTING ROUTLEDGE LIBRARY EDITIONS ACCOUNTING
